3. (S/NOFORN) Ms. Smiley was familiar with the history of GRILL FLAME. Throughout the briefing Ms. Smiley asked intelligent, thoughtful questions, and took copious notes. She explained that the only reason she was here was the strong support for GRILL FLAME by Rep Charlie Rose (D-NC), a member of the HPSCI. Ms. Smiley related she had discussed GRILL FLAME with Dr. Hal Puthoff, SRI-I, during his recent trip to Washington (week of 26 April 1982). She explained that while GRILL FLAME had not been cut in the House, it had been cut in the Senate, and, therefore, must go to conference for resolution. Ms. Smiley continued that neither the dollar amount nor the spaces appeared to be at issue, but rather the concept of parapsychology itself. She believed that GRILL FLAME would be an emotional issue in conference.
